

January 19, 2011 Sew In

Members arrived with snowflakes flying in the air but spirits were not dampened as they begin to make our 'comfort baby quilts' to be donated on National Quilt Day, March 19, 2011. Some of those present instead worked on completing the guild aprons to be worn at our Quilt Show on June 17 & 18, 2011 - tasks involved adding orphan blocks as pockets on the formerly plain white aprons. Future tasks will involve adding our name and logo to the top of the apron, adding capability to 'resize' apron to the user's comfort level!

A sample of the completed baby quilt is shown with others in different stages of assembly.

The apron project had a real assembly line feel with many more participants than shown here!
